DATACOM

MODULAR SHEILDED PATCH PANEL

DESCRIPTION

Datacom Modular Patch Panel accept up to 24/48 keystone jacks for shielded applications in 1U/2U models complies with ANSl/TIA-568.2-D requirements.Patch panels are UL certified and RoHS compliant. Datacom offers angled and straight patch panels with removable strain relief bar in 1U/2U sizes.

Datacom RJ45 patch panels improve cable organization and allow easy management of wired networks in data centers,commercial areas, and residential buildings.Datacom Patch panels are delivered with removable cable strain relief bar by default which shall be attached to the rear side. We have 24 ports and 48 ports flat design panels & Angled Panels.

Angled Patch Panels allow the cable to flow to each side of the rack and minimize the need for horizontal cable managers by enabling patch cords to be routed directly into vertical cable managers which leads to increased closet density.

APPLICATION

- Standard 19" rack compatible
- Suitable for STP keystone jacks
- Height: 1U /2U (24/48 ports)

STANDARDS COMPLIANCE

- ANSI/TIA-568.2-D
- ISO/IEC 11801-1 Class Ea.
